SA HUNTERS AND GAME CONSERVATION ASSOCIATION**

SHOOTING TEST FOR DEDICATED HUNTER

1. The Impala target with scoring areas as indicated below will be used.
2. Any centre fire calibre firearm may be used.
3. Any telescope may be used.
4. Every shottist must be given an opportunity to sight his rifle before the exercise starts.
5. There will be no time limit for the test. Range Officers will however have the right to expedite the exercise if more than 90 seconds is used per exercise.
6. The test will consist of three shots from 100m from the sitting, kneeling or standing positions. Any type of rest or suppot may be utilised, but no more than three shots will be allowed.
7. The objective is to have three out of three shots in the larger heart/lung/backvertabrae area. The result is not indicated as a score but only as "competent" or "not competent"

The sole purpose of this test is to assist with the candidates application for dedicated hunte status in accordance with the Firearms Control Act (Act 60 of 2000 as amended). No awards will therefor be be made.

IMPALA TARGET :

(Actual size: WxH = 1000 x 680mm. The thin red lines on the target will not be visible from a distance as the scores are not printed on the target.)

Target Areas	W x H mm	Area cm ²	vs Heart
Heart:	96 x 102	76	--
Central heart/lung:	173 x 177	272	350%
larger lung/back vertabrae:	235 x 226	512	670%
